E – Waste Management

In Sri Lanka the Hazardous Waste (Scheduled Waste) Management rules were first announced under the National Environmental Act in 2008 under the Gazette Extraordinary 1534/18. As per this regulation E – Waste has been categorized as a scheduled waste and every generator, collector, storer, transporter, recover, recycler and disposer should obtain a license from the CEA.

It is essential that every citizen should understand that E –Waste is hazardous and it is their responsibility to get it managed in an environmentally sound manner. The CEA has mandated that the E – Waste should be given only to authorized collectors
